Receptacle Adapter Boxes

| | Item Description |
|-------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  | <p>36544 Receptacle Adapter Box HV</p> <p>Allows for safe and easy testing of items terminated in a line cord. Also available in European and Universal (US polarity) versions. Designed for hipot testing only.</p> <p>Compatible Models: 3605, 3665, 3670, 3705, 3765, 3770, 5500DT, 5560DT, 75XXDT, 7620, 7650</p> |
|  | <p>36541 Receptacle Adapter Box HV / HC</p> <p>Allows for safe and easy testing of items terminated in a line cord. Also available in European and Universal (US polarity) versions. Designed for hipot and ground bond testing.</p> <p>Compatible Models: 3130, 5030DT, 7504A, 7564SA, 8004</p> |
|  | <p>38482 Receptacle Adapter Box HV / HC</p> <p>Allows for safe and easy testing of items terminated in a line cord. Also available in European and Universal US polarity) versions. Designed for hipot and ground bond testing.</p> <p>Compatible Models: 3140, 8104</p> |
|  | <p>37892 Receptacle Adapter Box 10A</p> <p>Allows for safe and easy testing of items terminated in a line cord. Also available in European and Universal (UK polarity) versions. Designed for line leakage testing.</p> <p>Compatible Models: 520L, 905D, 8005, 8006</p> |
|  | <p>38241 Receptacle Adapter Box HV / HC</p> <p>Allows for safe and easy testing of items terminated in a line cord. Also available in European and Universal (US polarity) versions.</p> <p>For use with internal scanner option only.</p> <p>Compatible Models: 7564SA, 8004</p> |
|  | <p>38306 Receptacle Adapter Box Dual HV Wire</p> <p>Allows for safe and easy testing of items terminated in a line cord. Also available in European and Universal (US polarity) versions.</p> <p>For use with internal scanner option only.</p> <p>Compatible Models: 76XX</p> |

Allows for safe and easy testing of items terminated in a line cord. Also available in European and Universal (US polarity) versions.

For use with internal scanner option only.

Compatible Models:
76XX

38577 Receptacle Adapter Box HC

Allows for safe and easy testing of items terminated in a line cord. Also available in European and Universal (US polarity) versions.

Compatible Models:
510L

38578 Receptacle Adapter Box Line Leakage (3ft)

Allows for safe and easy testing of items terminated in a line cord. Also available in European and Universal (UK polarity) versions. Designed for line leakage testing.

Compatible Models:
8105, 8106

38777 Receptacle Adapter Box HC

Allows for safe and easy testing of items terminated in a line cord. Also available in European and Universal (US polarity) versions.

Compatible Models:
620L

HS-01 Receptacle Adapter Box 8 (115V)

This optional receptacle box is ideal for applications when high volume manufacturing calls for multiple item testing. The system provides (8) individual receptacles for output of high voltage and high current. The front panel also includes (8) individual return cable ports to attach to the return side of each device under test.

The receptacles used on the HS-01 are modified by Associated Research for use at voltages of up to 5 kVAC and 6 kVDC. The adapter box allows for testing sequentially or all ports can be activated to test simultaneously. The front panel return connections are positive locking style connectors so the cables cannot be accidentally pulled from the connector during testing.

The HS-01 includes rack mount handles for easy mounting into an automated test system. Also included with the HS-01 are all the required cables for interconnection to the scanning matrix.

The HS-01 measures (H x W x D) 5" x 17" x 13" (147 x 432 x 320 mm) and weighs 9.2 lbs. (4.18 kg)

Compatible Models:
7504SA, 7564SA, 8004, HS-8A, HS-16, 7704, 8104 & SC6540
